Designed Exclusively for Amazon JWO

AD Elevate M830 was developed as a unique UHF inlay design to support the Amazon Just Walk Out (JWO) RFID solution for autonomous retail checkout applications.

Offered exclusively to Amazon, AD Elevate M830 features a 40# paper antenna carrier and thermal transfer printable face stock. The globally tuned inlay exhibits outstanding performance in the JWO retail apparel use case, allowing Amazon to deliver increased value to their customers by increasing store throughput and enhancing shopper experience. Improving labor efficiency and reducing theft and loss are other key benefits of this inlay. AD Elevate is a perfect fit for tagging apparel in both folded and hanging scenarios as well as general merchandise such as glassware, accessories, and hats.

AD Elevate M830 is equipped with the new Impinj M800 series IC, providing 128-bit EPC memory and a 96-bit unique factory locked TID number. A 48-bit unique serial number is factory-encoded into the TID.

Like all RFID products from Avery Dennison, AD Elevate M830 inlays are compliant with ISO 9001:2015 Quality Management and ISO 14001:2015 Environmental Management, which ensure a reliable and state-of-the-art product that meets a variety of application needs, especially in the retail environment. The RFID Lab at Auburn University has awarded Avery Dennison its first comprehensive and significant ARC accreditation for quality.
